Directions: Fill in the blanks with vocabulary words from the Reading Passage. Use the words in the word box.

After A Visit To A Health Professional – Tests

Health professionals may give you instructions about what to do after a visit. Your doctor may order tests after a visit. For example, if you go to the doctor because you hurt your knee, the doctor may order x-rays of your knee. You will then have to make an _____ (1) and go to a _____ (2) to get the _____ (3). Usually the doctor's office will call you with the _____ (4) results. Sometimes you will need to call the office to get the results.

After a visit, a _____ (5) or dentist may tell you to come back in a few days or weeks. The doctor or _____ (6) may also tell you to call the office if you are still sick or in pain after your visit.

A health professional may tell you to see a specialist. For example, your tests show that you have a problem with your heart. The doctor may tell you to make an appointment with a cardiologist, a heart _____ (7).
