Integrated Education and Training (IET) Guide

34 CFR Part 463 Subpart D

An Integrated Education and Training (IET) program must meet the definition and requirements set forth in [WIOA](#) and the final [regulations](#) as established by the Department of Education on August 19, 2016 in the Federal Register. IET is a service approach that provides adult education and literacy activities concurrently and contextually with workforce preparation activities and workforce training for a specific occupation or occupational cluster for the purpose of educational and career advancement (§463.35). An IET program must include the following three components: adult education and literacy activities, workforce preparation activities, and workforce training (§463.36). In addition, as part of a career pathway (§463.37), the design of an IET program should support the local and state workforce development board plans as required under WIOA.

As part of the *Building Opportunities through Integrated English Literacy and Civics Education* project, the U.S. Department of Education's Office of Career, Technical, and Adult Education contracted with the Manhattan Strategy Group to develop this Guide that may be useful in the development or review of an IET program.

How to Use this IET Guide

This Guide is intended to be used as a self-assessment in your development or review of an IET program. The requirements are followed by review questions. The review questions will help you determine if all required components as set forth in WIOA (see above), are included in your program's design.

You may either use the fillable form field feature of this pdf (complete the fields, choose "save as" and save to your desktop, then print if desired), or print it out and complete by hand to answer the following review questions.

We recommend that you answer the review questions for each section. Be as specific in your responses as possible.

2. How was the adequacy of the intensity and quality determined?

3. What research, particularly with respect to improving reading, writing, mathematics, and English proficiency of eligible individuals, is reflected in the design of this IET?

4. How are the three required components occurring simultaneously within the scope of the IET program?
