#### Self-Care and Non-Emergency Care

People often have things at home to treat small health problems. For example, you fall down and hurt your 1. You may have bandages, ice packs, heating pads, and over-the-counter medications in your home. 2 are medications that you can buy without a 3. You can ask a 4 which over-the-counter medicines to buy and how to use them.

Over-the-counter medications	prescription	ankle	pharmacist
------------------------------	--------------	-------	------------

If your problem does not get better or gets worse after you try to 5 it yourself, then you should talk to or see a doctor. The doctor may 6 and do 7. The 8 will tell you what to do to feel better.
